Subject: RE: Highlights for Wilcox and Tar Creek OU5 - FY17
Date: Thursday, May 10, 2018 10:01:00 AM

Myra/Ray, please note that the ESAT work provided for Wilcox and Tar Creek is related to remedial investigation work; therefore, the only program target accomplishment that applies is (a) Remedial site assessment completions: Total supported by ESAT. The summary provided applies to both sites.

Program Target Accomplishments

a. Remedial site assessment completions: Total supported by ESAT: Data review by ESAT assisted with the remedial investigation by providing assurance that decisions made regarding extent of contamination and potential risks are based on data of good quality. This work is essential and supports future site planning, technology evaluation, risk management decisions, and remedial action decisions.

b. RA project completions: N/A

c. Removal action completions: N/A

d. Human exposure under control: N/A

e. Groundwater migration under control: N/A

f. Construction completion: N/A

g. Site wide ready for anticipated use: N/A

h. Additional site specific highlights: N/A

Tar Creek:

h. Additional site specific highlights: During an opportunistic sampling event, tissue data were collected. Two of the samples were suspect, and ESAT provided detailed review and re-evaluation of the laboratory quality assurance data. This review provided a revised laboratory report with lower adjusted reporting limits that are in-line with the project detection requirements and that can be used with confidence to represent actual concentrations.

Subject: Highlights for Wilcox and Tar Creek OU5 - FY17

Hello Katrina – As indicated during our short phone conversation, HQ has requested that each region submit a report highlighting ESATs support. ESAT provided ample support for the WILCOX site either doing data review and/or analytical support at the Houston lab. A total of 49 work orders were written for ESATs support of Wilcox. Please provide the following for both Wilcox and Tar Creek:

Stage of investigation and purpose

If possible, how ESAT's assistance helped move the investigation forward.

If you can provide information (that applies to your sites) for the topics listed below where ESAT was involved. If they do not apply, just write – N/A

Program Target Accomplishments

- a. Remedial site assessment completions: Total supported by ESAT
- b. RA project completions
- c. Removal action completions
- d. Human exposure under control
- e. Groundwater migration under control
- f. Construction completion
- g. Site wide ready for anticipated use
- h. Additional site specific highlights

I will be out of the office next week. Please forward any information to Ray by 5/17/18. If you have questions or need more time, please contact Ray Flores at 281-983-2139.

Thank you Katrina. We really appreciate your assistance.
